Dynamic and innovative, I bring over a decade of experience in developing end-to-end web applications and systems. Proficient across both front-end and back-end technologies, I maintain a strong focus on delivering high-quality, scalable solutions tailored to meet client needs. With a keen ability to collaborate closely with Chief Technology Officers (CTOs), I excel in the fast-paced dynamics of startup environments, consistently delivering exceptional results. My skill set includes aligning technological strategies with business objectives, driving innovation, and adapting swiftly to change. Committed to continuous learning, I remain abreast of emerging technologies to enhance development practices and deliver cutting-edge solutions.
